RENAISSANCE READINESS™

COHORT 1 - ARMENIA

PREPARED BY

301AD®

A 501(C)(3) NONPROFIT ORGANIZATION

301AD.ORG

RenAIssance Readiness™ ***At a Glance***

A first-of-its-kind AI and soft-skills program developed by 301AD to empower Armenia's next generation of innovators.

12

GenerationAI students joined 301AD's first RenAIssance Readiness™ workshop

8

AI tools mastered to transform bold ideas into real web apps

30

Days from concept to creation — each student built a unique working web app

∞

Soft-Skill Checkpoints strengthening collaboration, confidence, and communication

1

Each student produced an Investor-grade Pitch Deck + Live Demo presented to advisors & mentors

RenAIssance Readiness™

Workshop Goals + Pathway

Week 1

Understand Modern Development Lifecycle

MVP, PRD, UI/UX, Backend, Frontend, Etc.

Week 2

Learn How to Use Cutting Edge AI Tools

Leverage for Ideation, Development, and Deployment

Week 3

Build & Deploy a Working MVP

From concept to live web/mobile app

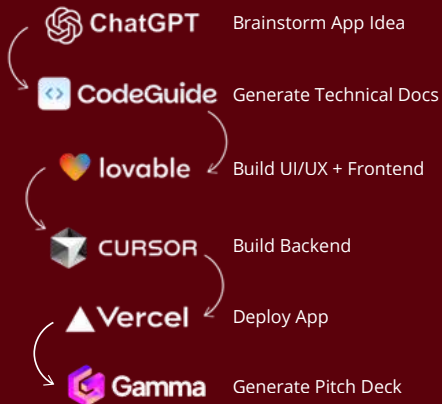

Week 4

Deliver a Confident Product Pitch & Demo

Present their app professionally as a Founder

Advanced Workflow

Beginner Workflow

Prioritizing soft-skills development, while mastering these key AI tools, will empower students to rapidly build, deploy, and scale apps (B2C, B2B, etc.) that resonate with users worldwide

RenAissance Readiness™

Cohort 1 - Web App Highlight - CoreYou

What if your digital self
actually felt like you?

CoreYou is an AI-powered “identity map” that helps people turn their memories, values, beliefs, and goals into a living visual graph, guided by an AI Friend, a Mind Compass for value-aligned decisions, Animated Memories, and tools to Discover People with similar inner landscapes.

It tackles the modern problem of a fragmented inner life scattered across apps and notes—especially acute for Gen-Z, who say they want more emotionally authentic digital experiences. Its positioning targets Gen-Z and Millennials, introspective creators, and people in life transitions, with a key differentiator: CoreYou doesn’t collect content; it reflects the self.

RenAIssance Readiness™

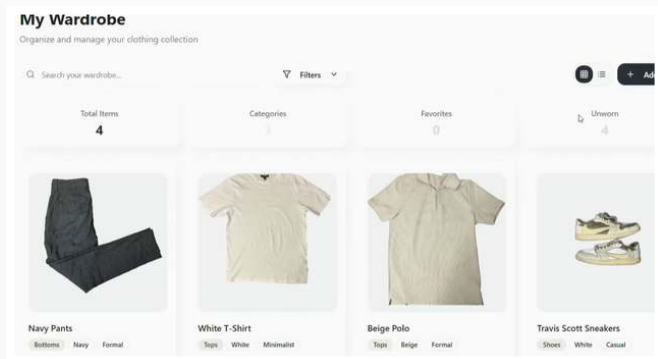

Cohort 1 - Web App Highlight - Wearable

Wearable - Smart Wardrobe Assistant

Same Wardrobe - Different Approach

Suren Saghatelian - Founder, Developer, Product Designer

Wearable is a smart wardrobe assistant that tackles daily outfit indecision and underused closets by letting users digitize their wardrobe and apply AI tagging to each item, then serving personalized outfit suggestions based on local weather and individual style.

Designed for fashion-aware Gen Z and Millennials, it combats decision fatigue—turning a time-sink into an effortless, stylish routine—while promoting sustainability by tracking wear frequency, nudging rotation, and discouraging impulse buys.

By combining organization with context-aware recommendations and mindful consumption, Wearable positions itself as a differentiated, AI-driven style companion that converts the “What should I wear?” struggle into confident, consistent choices—same wardrobe, smarter approach.

Sonus: Your AI Text-to-Playlist Companion

Created and Presented by: Andranik Torosyan

Startup Identity

CoreYou

The App for your identity

Tigran Khachatryan Founder & Product Architect

Solume

Explore Yourself. Heal Deeply. Grow Freely.

“

Using AI, I built a website I could only dream of creating before. **I feel like I've accomplished something truly meaningful.**

”

RenAlssance Readiness™ *Student Feedback Themes*

These heartfelt letters from our students highlight just how transformative the Renaissance Readiness™ AI course has been. Across every note, recurring themes emerge: **deep gratitude for the opportunity provided, admiration for the dedication and clarity of instructor Sargis, and excitement about the practical and professional skills gained.**

Students emphasized how the program built their confidence, expanded their technical knowledge, and inspired them to dream bigger about their future paths.

Many shared that they not only learned AI tools and frameworks but also developed **critical thinking, independence, and teamwork skills — growth that extends beyond coding into becoming stronger thinkers, collaborators, and innovators.**

Gratitude & Opportunity

Students expressed heartfelt thanks for the chance to participate and emphasized how meaningful this opportunity was for their futures.

“This course gave me the chance to discover myself.”
– Ines Khachyan

“Thank you once again for providing such an opportunity.”
– Gayane Hovhannisyan

“I am sure that this opportunity will help me in my life and in my career in the future.” – Vitali Avakyan

Instructor Impact

The role of Sargis Manasyan stood out. Students praised his clarity, patience, and the way he inspired them to love the subject.

“Sargis made complex concepts simple and engaging, creating a learning environment that was both productive and enjoyable.” – Anahit Hakobyan

“Your guidance, patience, and dedication made a huge difference — you encouraged us to grow not just as programmers, but as thinkers.” – Tater Smbatyan

Skill Development & Professional Growth

Students gained hands-on experience with AI tools and frameworks, building independence and problem-solving skills.

“This course pushed me to work independently, think critically, and solve real-world problems using technology.”
– Suren

“We explored modern AI tools, working with platforms such as Cursor, Replit, and others.” – Anahit Hakobyan

“These lessons helped me understand how artificial intelligence tools work.” – Narek

Confidence, Motivation & Community

Beyond technical skills, students built friendships, confidence, and motivation to continue learning and innovating.

“I gained not only knowledge, but also new friends, motivation, and confidence to continue learning and developing.” – Gayane Hovhannisyan

“I genuinely feel like I’ve accomplished something I could only dream of creating before.” – Student Participant

“Thanks to him, we not only learned but also grew a genuine interest and love for the subject.” – Anahit Hakobyan

Dear 301AD Team

I want to sincerely thank you for making this course possible through your support. It's a big opportunity for me and a truly meaningful experience. This course gave me the chance to discover myself, explore my interests and gain clarity about the professional path I want to follow. I am deeply thankful for this. It means a lot to me. This opened doors for me like to learn and dream bigger. Thank you for believing in us and giving us opportunity.

Warmest thanks
Khachyan Ines

I would like to sincerely thank you for the valuable and enriching course. During the course, I gained not only knowledge, but also new friends, motivation and confidence to continue learning and developing. Comrade Sargis, your clear explanations, interesting materials and support aroused great interest in the IT sector, and I truly appreciate the effort and dedication you put into teaching. This course helped me a lot, and I would participate in this course again at every opportunity. I would be very happy if such initiatives were continued. In my opinion, this course was successful and bore its delicious fruits. Thank you once again for providing such an opportunity.

Best regards, Gayane Hovhannisyan

During this course, I worked on my project, Wearable
And now I am writing to express my gratitude for
the opportunity to participate in the 301 AD course
and to reflect on my experience, particularly in develop-
ping my project.

This course pushed me to work independently, think
critically, and solve real-world problems using
technology. I explored a wide range of AI tools and
frameworks that not only improved my skills but
also helped me to understand how to approach
product development from both a user and system
perspective.

I truly appreciate the structure of the course, the
resources provided, and the support received. It
was a meaningful step in my growth as a develop-
per and creator, and I'm excited to continue building
on what I've learned here.

Thank you again for this opportunity.

Sincerely,

Suren

Dear FAST Team and 301 Foundation,

I would like to sincerely thank you for organizing such a high-quality and inspiring course. This program provided us not only with practical skills but also with motivation and confidence to continue our journey in the field of technology.

Throughout the course, we explored the use of modern AI tools, working with platforms such as Cursor, Replit, and others. Alongside the technical knowledge, we enhanced our analytical thinking, problem-solving abilities, and team collaboration skills.

And none of this would have been the same without our instructor, Sargis Manasyan. His inspiring presence, high professionalism, positive energy, and unwavering willingness to help made this course truly special. Sargis had a unique ability to present complex concepts in a simple and engaging way, creating a learning environment that was both productive and enjoyable. Thanks to him, we not only learned but also grew a genuine interest and love for the subject.

I'm confident that this course will have a lasting positive impact on my professional path. Thank you for this exceptional opportunity, the supportive atmosphere, and the outstanding organization.

From Anahit Hakanyan

Dear 303AD Sponsors,

I want to sincerely thank you for sponsoring my education at 303AD for a month. Your generosity gave me the chance to be part of an incredible learning experience that I will always value.

I'm especially grateful for the ease and flexibility that allowed me to fully participate, even when circumstances made it challenging. Your support and understanding made a real difference, and I truly appreciate the opportunity you gave me.

Thank you once again for believing in me and for making this experience possible.

With gratitude,
Viktoria Melkanyan

Dear 301AD and Fast Foundation,
Thank you for creating not just
a course, but a space—a space
where I could finally give
form to an idea that has lived
inside me for a long time: CoreYou.

I want to especially thank Sergis
Manasyan for his presence,
patience, and clarity, his support
very help me.

Thank You

EB CoreYou

I want to express my heartfelt gratitude to sponsors of the 301 AP. Your support made this learning journey possible for so many of us and it truly means a lot. These sessions have opened up new knowledge and none of it would have been possible ~~without~~ without your generous contribution.

A very special thank you goes to my teacher Sergis. Your guidance, patience and dedication made a huge difference. You explained complex topics with clarity and encouraged us to grow not just as programmers, but as thinkers.

Thank you very much.

From Tatev Smbatyan.

Okay, first things first - I would like to thank you all for this opportunity. When I signed up for this program, I thought of it as just a mediocre class I'll be wasting a month of my time on. But no I was proven wrong. I had a lot of fun using AI tools, brainstorming for more concepts I've done all I would never think I'd do.

▶ I've learned a lot here, I came into this with just basic Web-dev knowledge, but using AI I've managed to create a good website I could only dream of creating! I genuinely feel like I can't express the gratitude I feel, I feel like I've accomplished what I've wanted to accomplish in terms of Web-dev. I am genuinely thankful →

Hello my name is Narek, and Thank you
for this opportunity you have given us.
These lessons helped me understand how
these artificial intelligence tools work.

Narek

Thank you very much for this opportunity
I am sure that it will help me in my
life and in my career in future.
