THE FUTURE

WHO IS FAST?

With a mission to transform Armenia into a global AI and innovation hub, the **Foundation for Armenian Science and Technology (FAST)** drives the country's innovation ecosystem through its core pillars: education, research, and commercialization.

Their flagship initiative, Generation AI — co-implemented with Armenia's Ministry of Education — is a tuition-free, 3-year high school program now active across 26 schools in all provinces of Armenia, with ~800 students in the 2025–2026 cohort.

WHO IS 301 AD?

301 AD is a 501(c)(3) Nonprofit dedicated to mentoring the next generation of creative entrepreneurs. We teach anyone how to rapidly build real, working apps and products using today's leading AI tools — and pair them with **mentors** (creative entrepreneurs, business owners, diasporans) who guide them from idea to launch.

Our patent-pending 301 AD: RenAIssance Readiness™ curriculum is created and taught by 301 AD Instructors. Back in July 2025, 301 AD conducted an extracurricular workshop for 12 students in Armenia who were part of FAST's Generation AI high school project.

That first workshop's success led directly to this official strategic partnership — and the roadmap we're now building together.

OUTCOMES

Real Products Real Skills

- Unique app ideas brought to life using several AI tools
- Investor-grade pitch decks created from scratch
- Presentations and demos in front of live audiences
- Measurable growth in creativity, confidence, and public speaking

"I'm very happy that this collaboration has come to life, providing students with new tools and the mindset to stay competitive in the future. After each session, we consistently receive feedback on how engaged and incredibly creative the students are."

– Anush Ayvazyan, Education Programs Lead, FAST

The background of the entire page is a photograph of two young men. The man on the left has dark hair and a beard, wearing a light-colored polo shirt. The man on the right has dark hair, is smiling, and wearing a light-colored button-down shirt. They are shaking hands. Behind them is a presentation board with the word 'Ines' repeated several times and the word 'User' visible. The text '301 AD' is overlaid on the image in a large, white, serif font.

Impact Through Mentorship

Mentor a Student in Armenia This Summer

We're selecting the most promising builders from our 2025–2026 cohorts for 301 AD: RenAIssance Readiness™ 2.0 — an advanced workshop where students work with mentors online to refine their apps/ideas and develop go-to-market strategies. Contact us if you're interested in getting involved as an online mentor this summer.
